SEO and e-commerce growth strategist with seven years inside Greenlane's multi-brand e-commerce portfolio and a year running my own studio. I connect technical, local, and AI-search (AEO/GEO) strategy with UX, catalog and conversion work, and AI-assisted systems that include human review, then measure results in Search Console and GA4. Seeking senior remote roles in SEO leadership, e-commerce growth, or AI and automation strategy.

EXPERIENCE

Founder · 9R Designs & SEO Tier 1
Sept 2025 – Present

West Palm Beach, FL · Web design, SEO/AEO/GEO, e-commerce, automation

- Lead strategy, design, SEO architecture, and delivery for home-services, childcare, motorcycle e-commerce, brokerage, industrial, and creative clients.
- Took a new electrician site (TFW Electric) to page one for Gwinnett County terms within ~100 days by fixing a JavaScript-injected noindex, consolidating canonicals, and adding Electrician schema.
- Grew Gatti's Garage monthly Google clicks ~4× (Apr–Jul 2026). Building its BigCartel-to-Shopify migration: 1,445 orders ($195.7K) mapped by a deterministic Python pipeline, with zero mismatches in the final 861-order batch.
- Rebuilt and optimized three preschool sites (seven campuses), including a bilingual EN/ES site. Fixed a lost-lead CTA, added attribution and GA4 lead events, and built privacy-safe lead reporting.
- Built reusable systems for SEO audits, content planning, Python/Gemini image SEO, and draft-only monthly reporting, directing Figma Make, Next.js, Shopify/Liquid, Supabase, and Make.com builds.

Boca Raton, FL · Vapor.com, HigherStandards.com, PuffItUp.com, Haring Glass, Wholesale.Greenlane.com

- Helped raise conversion from 1% to 3% in about three months, and contributed to revenue growth of up to 37%, through product content, landing-page structure, and UX improvements.
- Got brands among the first in the vape category to appear in ChatGPT, Gemini, and featured snippets using early AEO/GEO techniques.
- Managed metadata, product and category content, and workflows across PIM and e-commerce platforms.
